Corporate Philosophy

To continue being a company that is needed by society (our customers).
To strive for the improvement of the lives and qualities of all employees.
To contribute to society (our customers) by providing reliable products.

Message

A company is a collective of "people." In other words, we believe that the employees who work here must be the main actors.
Under its corporate philosophy, Kawashima Industries Co., Ltd. strives to become a company needed by its customers, with the goal of each employee growing daily through their work.
As a result, we aim for a business model where "customers are satisfied, leading to the enrichment of both the company and its employees, and contributing to the community and society as a whole.
